BRAINSTORM

come up with three different ideas of themes + interactive features

Idea 1: Clone wars characters

Theme

I make a webpage about my favorite characters from star wars the clone wars

Interactive JS Feature #1

When you click a image it plays a voiceline from the character

Interactive JS Feature #2

When you click a image of a character it displays a brief description of the character

Idea 2: MK ninjas

Theme

I remake the imperial leadership website but with the ninjas from the new MK1

Interactive JS Feature #1

When you click a photo it plays a clip of the character

Interactive JS Feature #2

When you click a photo it shows a description of a character

Idea 3: dodgers interactive

Theme

Dodgers players and their best games with stats

Interactive JS Feature #1

Play specific sounds when you click on a player

Interactive JS Feature #2

Click on a player and it shows their best stats

EVALUATE

think about the good and bad for each idea then choose one

Pros/Cons of Each Idea:

	Pros	Cons
Idea 1:clone wars	Familiar with most of the coding Can use the code from other projects as a blueprint	New coding (sound/layouting)
Idea 2: mk1	Can use the code from other projects as a blueprint	New coding (videos May be a while to get clips / gifs
Idea 3:dodgers	Can use the code from other projects as a blueprint	New coding (videos and sounds

Pick your Leader

The 501st was the battalion led by Jedi general Anakin Skywalker. Officially led by Captain Rex this unit has nearly 400 men as a whole. Memorable characters consist of medic Kix, arc trooper Fives, HardCase, Lieutenant Jesse and Sergeant Appo.

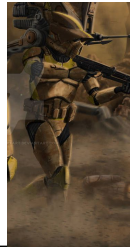

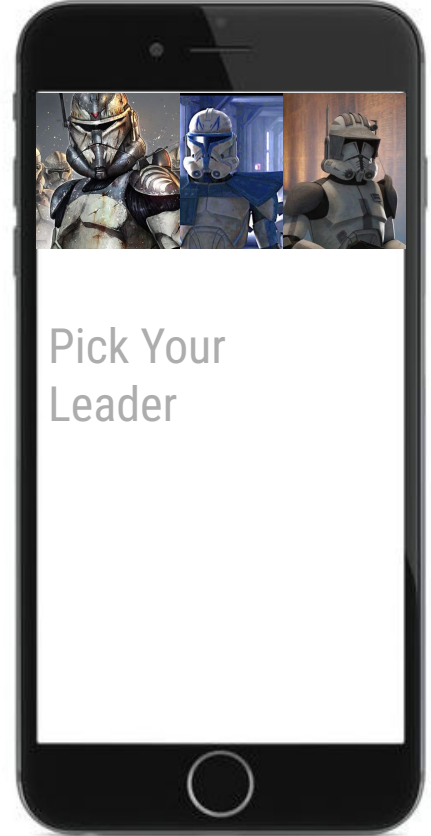

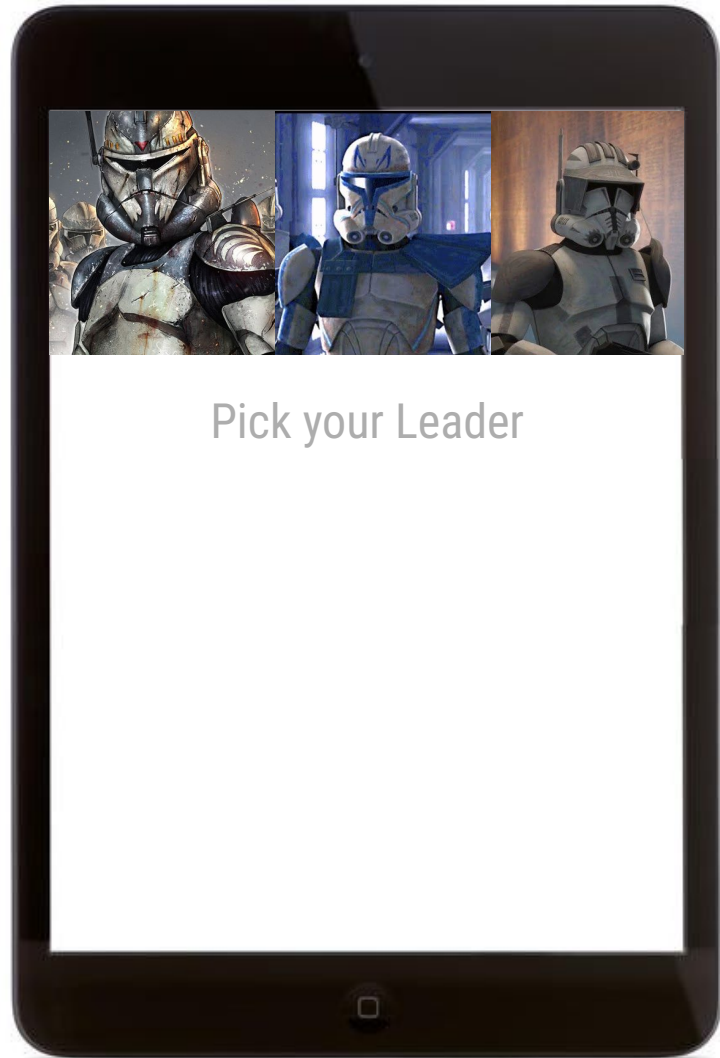

The wolfpack is the most rare division to see. Led by commander Wollfe, the wolfpack wear grey to remember fallen soldiers. The battalion consists of characters like. Comet, Boost, Clone Commando (RC) Hilo and CPL Sinker. With a small batch of regular troopers

The 212th attack battalion was led by Obi Wan Kenobi and Commander Cody. this battalion would commonly work with the 501st division. This battalion was usually sent to more rough planets and battles than the rest. Troopers consist of Crys, Boil, Waxer, Gregor and Wooly with a bigger batch of troopers than the 501st.

TEST + ITERATE

get feedback from users then make revisions to your user interface

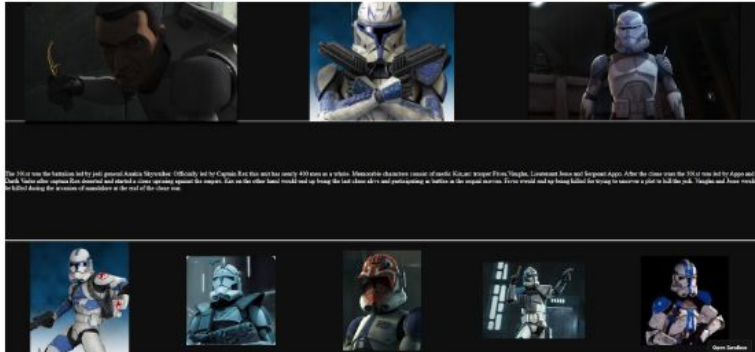

UI Before Feedback (Screenshot / GIF)

What trends did you identify in your feedback?

- Could be more responsive with the top images
- Needs more direction for the viewer
- Animations are a little plain
- No border for text
- Text can overflow off the sides

UI After Feedback (Screenshot / GIF)

What changes did you make to improve your UI?

- Added a border
- Changed animations
- Fixed when text overflows
- Made the top images also change when clicked
- Made it so you can switch seamlessly between clone commander/ Battalion
- Added sound
